WORK EXPERIENCE

DirecTV

Dec 2021 - Jul 2023

Platform Engineer (DevOps)

Los Angeles, CA

- Administrated an instance of Jenkins. Managed application deployment by collaborating with other departments. Achieved AWS Cloud Practitioner Certification.
- Achieved an award for outstanding performance: Solely refactored old Java applications to integrate routine security scanning.
- Visualized security reports via AWS QuickSight, AWS Athena, AWS ETL, AWS DynamoDB, AWS EventBridge and AWS SNS.
- Reducing company costs, implemented a serverless cloud based solution for automated application deployment. Developed using Python, Ansible Tower, VMware, AWS Step Functions, AWS Lambda, AWS API Gateway, AWS S3 Buckets, and Jenkins. Projected yearly company cost reduction of \$494,000.

InCube

Oct 2020 - May 2021

Software Developer

Amman, Jordan

- Developed a proof of delivery application using Flutter (frontend - mobile) and .NET (backend). Contains 3 different views: Customer, Driver and Supplier (Warehouse). Functionalities: Sign/Photo on delivery, Driver ETA (with the ability for the driver to change order of delivery with live updates to the customer), Driver tracking, warehouse management, and HEREmaps.
- Developed a dynamic survey module using Flutter, which can be integrated into any existing application.
- Multiple coursework: Microservices, Docker/Kubernetes, C# (SignalR and MVC), Flutter, and Angular.
- Set up a framework for future employers. Trained a team of three developers to a proficient level in Flutter.
